### PUBLIC NOTICES

#### IMPORT TRADE CONTROL

New Delhi, the 19th April, 1968

SUBJECT:—Revalidation of actual user licences.

**No. 60—ITC(PN)/68.** Attention is invited to paragraph 240(2) of the Import Trade Control Hand Book of Rules and Procedure 1953 published under the Ministry of Commerce Public Notice No. 57-ITC(PN) 68, dated 8-4-1958, which lays down that requests for revalidation of actual user licences will be considered on merits, by a licensing authority, where such authority is satisfied that the request for revalidation is based on genuine difficulty and the refusal to grant extension will cause hardship or loss to the licence-holder and that in deserving cases, licences may be extended for a period not exceeding six months provided such revalidation is otherwise allowed in terms of the relevant import policy. It is further provided that actual user licences for raw materials, components and spares will not be revalidated beyond six months and such requests will be summarily rejected. Sub-paragraph (12) of Paragraph 240 of the Hand Book also provides that the revalidation of an import licence allowed by a licensing authority may be subject to such conditions or restrictions as such authority may impose.

2. In view of the above provisions, the licensing authorities will consider requests for revalidation of actual user licences for raw materials/components/spares on the basis indicated below:—

- (a) Import licences issued against free foreign exchange or rupee payment will be considered for revalidation upto a maximum period of six months, including the period of revalidation already availed of, if any.

- (b) Requests for revalidation of licences issued against foreign credits/Loans will be considered and licences revalidated for such period as may be consistent with the terms and conditions of the concerned Loan or Credit.
- (c) While considering applications for revalidation, the licensing authorities will delete items the import of which is not allowed to actual users in terms of the import policy in force at the time of considering the application for revalidation. The items shown as licensable to a ctual users for export production only will be treated as not permissible for this purpose. In the case of chemicals, durgs and medicines and dyes-intermediates, only those items which appear in the banned list in the relevant Red Book will be treated as not permissible for this purpose.

**SUBJECT:**—*Terms and conditions governing the issuance of import licences, financed under International Development Association credits—78IN, 92IN and 97IN.*

**No. 63-ITC(PN)/68.**—Attention of the importing firms holding I.D.A. licences is invited to Ministry of Commerce Public Notice No. 28-ITC(PN)/67 dated 21-3-1967, setting out the terms and conditions governing the issuance of import licences under 4th I.D.A. credit No. 97IN. The same terms and conditions were applicable to and attached with the licences issued earlier under I.D.A. credits No. 78IN and 92IN.

2. In accordance with the said conditions single payments exceeding \$ 30,000 equivalent in value, are required to be made through the I.D.A. under the "Direct Payment Procedure", and not by remittance through normal banking channels. The only exception is in the case of Non-ferrous metals imports, where the importing firms have the option to use direct payment procedure or re-imbursement procedure in respect of single payments exceeding \$ 30,000.

3. It has been decided, that *with effect from 1-5-1968, purely as a temporary measure and until further orders*, the importing firms will be permitted to use re-imbursement procedure in all cases, even in respect of single payments exceeding \$ 30,000. The licensing conditions may be deemed to have been modified to this extent.

4. The authorised dealers in foreign exchange have been separately instructed to arrange payments in above types of cases by remittances through normal banking channels, and follow the same procedure regarding payments and documentations etc. as is being followed in respect of payments below \$ 30,000.

**SUBJECT:**—*Import of radio components by S.S.I. units—April 1967—March 1968 period.*

**No. 64-ITC(PN)/68.**—Attention is invited to the Ministry of Commerce Public Notice No. 168-ITC(PN)/67 dated the 16th November, 1967 in terms of which S.S.I. units engaged in the manufacture of valve type radio receivers, transistor radio receivers, amplifiers and car radios are allowed to import certain components up to specified value limits within the face value of the licences granted to them for the period April 1967—March 1968.

2. In accordance with the policy in force, the import entitlement of actual users have been split up for the purpose of issuing licences against free foreign exchange, Rupee Payment, West German Credit and U.S. Aid. The items allowed for import against each of these licences issued to a unit are the same. These items bear face value restrictions in relation to the value of the licences to the extent indicated in the aforesaid Public Notice. It has been represented that such face value restrictions result in the same item being imported in small and uneconomical value separately against each of the licences issued to a unit for the reason that the item in question appears with its face value restriction in the list attached to each licence.

3. The matter has been considered. If an actual user proposes to arrange his imports against the licences issued to him in respect of various modes of financing, in such a way that the import of a particular item covered by these licences is effected only against one of these licences, he will be allowed to do so, and the licensing authorities will endorse the licences accordingly, on request. Such endorsements will enable the licensee to import a particular item covered by his licence against one of these licences provided the import of the item in question does not exceed the total value earmarked for that item in all the licences. While allowing such endorsements for import of a particular item against one of the licences, the item in question will be deleted from the other licences.

2. Para 18(b) of Section I of the Volume II contains provision relating to import of plant and machinery for replacement, balancing or modernisation. The form in which requests for grant of licences for import of plant and machinery are to be made is at Annexure XI of Appendix 4 to the Import Trade Control Hand Book of Rules and Procedure, 1968.

3. It is clarified that the requests for import of plant and machinery under the Import Policy for Registered Exporters will be considered only if these are accompanied by an essentiality certificate issued by the concerned sponsoring authority certifying the quantity and value of the machinery items applied for.

**No. 68-ITC(PN)/68.**—Attention is invited to the Import Policy for Registered Exporters contained in Volume II of the Import Trade Control Policy Book (Red Book) for the year April 1968—March 1969 issued under the Ministry of Commerce Public Notice No. 50-ITC(PN)/68 dated 1-4-68.

2. In para 19 of Section I Volume II it is laid down that if an item allowed for import under this policy happens to be canalized for import through the STC/MMTC or any other agency in accordance with the current Import Policy, a release order will be issued in favour of the manufacturer for supply being arranged by the Canalising Agency at the International price plus reasonable incidentals.

3. For this purpose, the applicant firms should separately indicate in their applications for grant of replenishment licences the c.i.f. value of the canalised items required by them.

4. In para 20 of Section I, Volume II, an option has been allowed to Registered Exporter for asking for release order in respect of items which are stocked by STC/MMTC. If any of the applicant firms desires to procure such material from STC/MMTC, they should separately indicate the c.i.f. value of such material in their applications for grant of replenishment licences.
